Amsterdam, Jau. 30 .-- The German censor has ordered the Berliuer Tageblatt, the Vorwnerts and the Berliner Post to cense publication, according to a dispatch received here from Beriin. The han was placed on the newspapers owing to their attitude toward the striking workmen in Gormany, says the dispatch.

OUR NEW OFFICIALS.

Our new county officials are making excellent beginnings in the performance of their. duties. Judge Cook displays a commendable spirit of the responsibilities of his office, and, without the waving of bunting or hlare of trumpets, is attendto the duties of his office iu a sible thought he gives to all muttors

work that cannot fail to succeed. Perhaps no Superintondent of the county ever entered upon the duties of his office with a higher sense of BOMBS ON PARIS of his office with a higher sense of duty or a firmor purpose to discharge it well than Mr. iloward. charge it well than Mr. iloward. Jailer Tichonor is a peach. He let one prisoner get away, but he has stopped the hole in the wall, through which the prisoner crawled to liberty, with a bed cover, so there will be no oxlt by that route bereafter. Then he furnished the prisoner with a horse to get out of town on. No former jalier was ever so obilging. But Tich is a bully fellow and evorybody likes him; especially those who note how he has scattered ashes d German Workers by The on the front court house steps to keep the weary and scary pedestrian from scooting rather than waiking down. Biankenship and Kirk are old war horses, and don't know how to do anything but their duties, and do them well. Then there is Aus Bratchor. We will reserve him for s separate article all hy huniself. Really Lon Raiph deserves some mention for riding a thousand miles parts of Paris and, suburbs. Sov- through snow and ice and sero wasthcr. Lon has been as husy as a possum in persimmon time. He has not learned how to shirk yet, and he really goos to see the fellows the but a further statement will ho is- sheriff tells him to see. By another winter Lon will learn the short routes home on hlustery days. Dillis Ward is just lching for the tima to come when he can show the state the Daily Express from Geneva ro- tax commission what a real live asports that there have been clashes sessor can do. But idilis' hour has

LON AND LYDIA AGAIN.

Lon Griffin, the negro in jail charged with shooting at his wife, Lydia, with inteat to kili, was brought into court Monday for examining trial which he waived and was remanded March grand jury. Judge Cook fixed Griffin's hond at \$300 but there seems little prospect for his fiading hondsmen, and he will probably have to languish la jail until Circuit Court convenes. It seems that Lon's and Lydia's troubles are of long standing and difficult of permanent adjustment. Griffin is n hardworking and honest negro, and has probably coatributed his share toward domestic tranquility. His wlfo and children appeared in court comfortably dressed, indicating he had made suitable provision for their comfort and welfare.

THE WOMEN AND THE PARK.

We are sorry to disturb the jalier's garden, but we are for the women in their demand for the city park. The plot belongs to the city, and the county has no just right to appropriate it, even to the important purpose of a jailer's garden. We prefer to see it converted into a flower garden. The city needs n hreathing place and this is the only spot left for it. We are ready to join a mon's auxiliary to the Woman's Ciuh for the purpose of planting trees on the plot, after which we will stand by and watch the M. Angeli, from Chicago, to install stands in the way of their plans for

BODY OF SOLDIER NUDE AND MUTILATED

to jail to await the action of the Shipped Home From Camp. Jackson for Burial in Tennessee.

Washington, Jan. 29.—Retresentative Samuel R. Sells, of the First Tennessee District, today sent to \$.22retary of War Baker evidence of what appears to have been inhuman reatment of an American soldier outrivaling the case cited hy Senato: Chamberlain in the latter's recent speech in the Senate. From the standpoint of seasationalism nothing approaching the atory revealed to Selis and which he transmitted to Secretary Baker has yst heen ancovered.

The soldier in question was a constituent of Representative Sella, the son of poor but eminently respectable parents, who reside on a farm in his district. The son died at Camp Jackson, South Carolina, and cerehro spinas meningitis was givea aa the cause of death.

Th hody was shipped home and the comn containing it was labeled, "Do Not Open." The boy's parenta, however, were anxious to have one last look at the remains of their son, so they had the lid removed and were horrified at the sight that mat their eyes. There iay th body of their son shoolutely naked; not even a nightshirt or stitch of underciothing covered the form. A dirty blouse was crammed into the hottom of the box. The hody was covered with dirt and olotted blood. it had been ripped open with a surgeon's knife nlmost to the throat and had not been washed after the operation. Apparently the viscera had heen removed. At the hase of the hrain was a depression where the skali had been crushed in, apparently by a hiunt instrument of

sonie kind. Statements Under Oath. Ali of these statements with reforence to the hody and its condition are supported by affidavits sent to publican office the hest mechanical- cases yet, and until the district hoard Secretary Baker today by Representative Selis. The name of the sol-

SOUTH DAKOTA VOTES YES.

Bismnrck, S. D., Jan. 26.—The Senate, with only two dissenting House resolution ratifying the federal prohibition amendment.

AMERICAN SUGAR SENT TO FRANCE

American Price Rigidly Regulated, by United States Food Administration.

CONSUMERS HERE PAY 9c.

Sugar Cost 35 Cente a Pound During Civil War-Refiners' Profite Now Curtalled.

Sugar is selling today throughout America at from 81/2 to 9 cents a pound to the consumer, even though there is a world shortage which has reduced this nation's sugar allotment to 70 per cent, of normal,

Through the efforts of the United States field administration the sugar market has been regulated as far as the producer, refiner and wholesuler is concerned. The food administration has no power to regulate retali prices except by public opinion. Even though more than 85,000 tons of sugar have been shipped to France in the last four months the retail grocer's sugar price is around S to 81/2 cents. He should sell this sugar at 81/2 to 9 cents, the food administration helieves, and asks the American hon-evite to pay no more than this amount

Last August when the food admin-Istration was organized the price of sugar rose suddenly to 11 cents a pound. During the Civil War sugar cost the coosumer 35 cents a pound. By regulation of the sugar market and reducing the price to 81/2 and 9 cents and keeping it from advancing to 20 cents the food administration ims saved the American public at least \$180,-000,000 in four months, according to · stalement made by Herbert Hoover . the other day.

lies, to maintain their health and strength at any cost to ourselves," Mr. Hoover declared. "There has not been, nor will be as we see It, enough sugar for even their present meagre and depressing ration unless they send ships to remote markets for it. if we in our greed and gluttony force them . or to send these ships we will have ernments. done damage to our abilities to win

"If we send the ships to Java for 250,000 tons of sugar next year we will have necessitated the employment of eleven extra ships for one year. These chips-if used in transporting troops-would take 150,000 to 200,000 men to France."

Reason for World Shortage.

As Mr. Hoover pointed out, the United States, Canada and Eagland the war, while France and Italy were very nearly self supporting. The main sources of the world's sugar supply was Germany and neighboring powers, the West Indies and the East Indies.

German sugar is no longer available, as it is used entirely in Germany, which also absorbs sugar of surrounding countries.

England can no longer buy 1,400,000 long ions of sugar each year from ; Germany. The French sugar production has dropped from 750,000 to 210,-000 tons. The fullan production has fullen from 210,000 tons to 75,000 tons. Thus three countries were thrown apon East and West Indian sources for 1,925,000 tons animally to mahitalitheir normal consumption.

Because of the world's sldpping shertage the alifed nations started ; drawing on the West Indies for sugar; Must Indian sugar took three times the number of ships, since the disonce was three times as great. Sadnish and did furnish 1,420,000 tons of sugar to Europe when 300,000 tons ii tons before the shipping situation became neute.

"In spite of these shipments," Mr. Hoover sinted the other day, "the English government in August reduced the household sugar rutlen to a basis of 24 pounds per annum-per capita. And in September the French government reduced their household ration to 13 2-10 pounds a year, or a filt over I pound of sugar a month. Even this mengre ration could not be filled by the French government It was found pounds per person, and it was consider production for ourselves and the alered the duty of maintaining the Grench marale made our course clear."

Today the sugar situation may be summarized by stating that if America will reduce ite eugar consumption 10 to 15 per cent. this nation will be able to send 200,000 more soldiers to France.

Sugar today setis at senboard re-Paerles at \$725 a familied pounds. The wholesale grover has agreed to Hunt his profit to 25 cents a hundred idus freight, and the retail grocer is supposed to take no more than affecuts a hurdred pounds profit. This reguration, which now asks the housevelfeto reduce sugar consumption us much as possible, using other sweeteners, and also reminds her that she should my no more than 9 cents a pound for

sugar. Control of Cane Refinere' Profits. "finnedlately upon the establish ment of the food administration," Mr.

Hoover suld, "an examination was made of the costs and profits of refluing and it was thally determined that the sprend between the cost of raw and the sale of rethied cane sugar should be limited to \$1,50 per landred. jounds. The pre-war differential had iveraged about S5 cents and increased coses were found to laive been imposed by the war in increased cost of refinlag, losses, cost of imgs, labor, Insurance, Interest and other things, rather more than cover the difference. After prolonged negotiations the reflaces were placed under agreement establishing these fluits on October 1, and anything over this amount to be agreed extortionale under the law.

"In the course of these investigations it was found by canvass of the Cuban producers that their sugar had, during the first nine months of the past year, sold for an average of about \$4.24 per fundred f. o. b. Cuha, to which duty and freight added to the refiners' cost amount to about \$5.60 per hundred. The average sale price of granulated by various refineries, according to our investigation, was about \$7.50 per hundred, or a differential of

"In reducing the differential to \$1,30 there was a saving to the public of 5-1 cents per hundred. Had such a differential been in use from the 1st of January, 1917, the public would have illicit distillation is co-operation with gaved in the fleet after months of the year alout \$24 ROMOVEL"

Next Year.

With a view to more efficient organization of the trade in imported sugars next year two committees have been formed by the food administration:

1. A committee comprising representatives of all of the elements of American cane retining groups. The principal duty of this committee is to divide the sugar imports pro rata to their vurious capacities and see that absointe justice is done to every re-

2. A committee comprising three representutives of the English, French and Italian governments; two representatives of the American refluers, work with a member of the food administration. Only two of the committee have "It is our stern duty to feed the al- arrived from Europe, but they represent the ullled governments. The dutles of this committee are to determice the most economical sources from a transport point of view of all the allies to arrange transport at uniform rates, to distribute the foreign sugar between the United States and allies, at Chattenooga. subject to the approval of the Amerlellher to further reduce their ration can, English, French and Italian gov-

This committee, while holding strong views as to the price to be paid for Cuban sugar, has not find the limit voice. This voice has rested in the governments concerned, together with the Cubna government, and I wish to state emphatically that nil of the gentlemen concerned as good commercial men have endeavored with the utmost patience and skill to secure a lower orice, and their persistence has reduced Culan demands by 15 cents per hundred. The price agreed upon is were sugar importing countries before about \$1.60 per hundred pounds, f. o. b. Cuba, or equal to about \$6 duty paid New York.

"This price should eventuate," Mr. Hoover said, "to about \$7.30 per hundred for refined sugar from the refiners at seaboard points or should place sugar in the hande of the consumer at from 81/2 to 9 cents per pound, depending upon locality and conditions of trade, or at from 1 to 2 cents below the prices of August last and from onehalf to a cent per pound cheaper than today.

"There is now an climination of speculation, extortionate profits, and in the relining alone the American people will save over \$25,000,000 of the reflying charges last sear. A part of these sayings goes to the Cuban, Hawnilan, Porto Rican and Lonsinnian producer and part to the consumer.

"Appeals to prejudice against the food administration have been made dealy the west was called on to fur- because the Cuban price is 31 cents whove that of 1917. It is said in effect a deep backing cough that worries tint the Culcans are at our mercy; year was the pre-war demand. The that we could get sugar a cent lawer. ailles had drawn from Java 400,000 We made exhaustive study of the cost of producing sugar in Cuba fast year through our own agents in Cuba, and we find it averages \$3.39, while many bottle to-day at your druggist and cured a diverce from his wife, but it producers are ut a higher level. We found that an average profit of at least a cent per pound was necessary in order to mulntuin and simulate production or that a minimum price of \$4.37 was necessary, and even this

would stiffe some producers. "The price uithnately agreed was 23 cents above these figures, or about onetifth of a cent per pound to the Amerienriy in the full. America was then can consumer, and more than this asked for 100,000 tons of sugar and amount has been saved by our reducsucceeded in sending \$5,000 tons by thou in refiners' profits. If we wish to December 1. The French request was stille production in Cubn we could granted because the American house- take tint course just at the time of all hold consumption was then at least 55 times in our history when we want lles. Further than that, the state department will assure you that such u ourse would produce disturbances in Cubn and destroy even our present reasons is one of imman justice. This great country has no right by the might of its position to strangle Cuba.

upon the American public. Charges have been unde before this commitice that Mr. Itolph endenvored to benellt the Callfornia retinery of which ho was manager by this 31 cent increase in Culmu price. Mr. Rolph did not lix lation was made by the food administ the price, in does raise the price to the Hawallon farmer about that uniount. It does not raise the profit of or gravies, or as a binder in corn the Unlifornia retinery, because their bread or other cereal breads. clurge for retining Is, like all other reflaers, limited to \$1.30 per hundred pounds, plus the freight differential on

the established custons of the trade, "Mr. Itolph less not one penny of incerest in that relinery."

MOONSHINERS INCREASING

Nation-Wide Campaign Announced by Internal Revenue Commissioner.

TO SOLDIERS

In Bone Dry States and Governors Sought to Aid in Stamping Out Evil.

Washinggton, Jan, 24 .- Discovery that manufacture of mountaine whisky is increasing rapidly in bede dry States, and that quantities have been soid illicitly to soldiers in Southerte camps, caused laternal Itsvenue Commissioner Roper to announce today a nation-wide campaige against State Governorss.

The campaign has aiready resul ed in arrests of hundreds of moonshiners, in Southern dry States State laws forbidding importation. and the Federal tax of \$2,20 a gailou have driven the price af crude corn liquer about many camps to \$8 and \$12 a quert, accarding to evidence gathered by the revesua agents

Commissioner Raper has obtained from many Governors andorsement of the anti-liquor combination. Some State executives and local officials. however, were reluctant to furnish the State agents required for the

WHEATLESS AND

MEATLESS DAYS

"Fifth-Millers of flour are to distribute their autput through their customary channels and markets in such a manuer that each city, town and district may receive its usual proportion. The wheat millors have been required to produce one harrei of Ruir (196 pounds) from 264 pounds of wheat. This is a white flour and represents from two per cent (2 per cent) to four per cent (4 per cent) per higher extraction than from last year's harvvesst.

"Sixth-To assist further in conof each week are to be observed as public eating places, and on such government. days and meals no crackers, pastries, unccaroni, breakfast foods or other rereals containing wheat should be used. The only exception to this is such small amounts of llour as

"Seventh-On wheatless plays, and have totight." and at wheatiess meals, the food adadnistration anges that bread hak- to kill all those men " ed in the home be other than wheat, bread. Where bread is purchased already said 'Amen.' '

cither for use in public eating places or in the hamo Victory bread should he used. W no wheat substitutes can be found. The federal food administrator la oach stato will announce the meal to be observed as a whontless meal in his state. If no meai is designated, the United States food administration prefers that the evening meaf he wheatless.

"Elghth-It is further desired, In order that meat and pork products he conserved, that one meat less day (Tnesday) in every week, and one meatiess ment in overy day, be observed, and, in addition, two parkiess days (Tuesday and Saturday) in every week he strictly kept. lly 'meatiess' is meant without hog, eattle or sheep products. On other days uso muttoe and famb is proferance to heef or pork. Hy 'porkiess' is meant without pork, bacca, ham, lard or pork products, fresh or preserved. Uso fish, poultry and eggs.

"Ninth-For local situations where exceptions ere necessary applicetion should be made to the State food administrators."

Muscle Soreness Relieved.

Unusual work, bonding and lifting or atrenuous exercise is a etrain on the muscles, they become sore and still, you are crippled and la pain. Sioan's Linkment brings you quick relief, easy to apply, it penetrates without rubbing and drives out the soreness. A clear liquid, cleaner than mussy piactors or ointments, it loes not etaln the skin or clog the pores. Telephone Courtesy

The people who get the greatest amount of good out of their telephone are those who talk over it as though face to face.

Courtesy smooths out difficulties and promotes the promptest possible connections.

The operators of the BELL System are trained to be patient and polite under all circumstances, but they will do better work if they meet with patience and politeness on the part of the telephone

The fact that you cannot see the operator or the other party should not cause you to overlook this. The best results come through the practice of mutual courtesy.

The voice with the smile wins

PRESIDENT ISSUES

Mendays, Wednerdays And O & Meal Each Day To Be Wheatless.

W shington, Jan 28 Tue foltowing proclaimthon was praced tonight by president Wt. on on 1001 conservation:

A PROCLAMATION

"Many causes have cont linted to colate the necessity for a more and has all the fun. Intensive offort on the part of our people to save food in order that we may supply our associates in the war with the sustenance vitally nece ony to them in these days of privaller and stress. The reduced productivity of Eurpe Tecause of the large diversions of mon-cover to the war, the portlal fallure of hargas and the elimination of the ore distant markets for foodluffs through the destruction of hlpping, pinces the burden of their ubsistence very largely on our shoulders.

"The food administration has formulated suggestions which, If followed, will enable us to meet this great responsibility, without any real inconvenience on our part.

In order that we may reduce our consumption of wheat and wheat production by 30 per cent -; reduction imperatively necessary to provide the supply for overseas wholesalers, jobbers and retallers should purchase and resell to their customers only 70 per cent, of the amounts used in 1917. All mannfacturers of officentury pastes, biscosts, crackers, pastry and breakfast cereals should reduce their purchoses and consumption of wheat and wheat flour to 70 per cent, and all bakers of tread and rolls to 80 per cent, of their current reunfrements t'ansumers should re- got?" duce their parchases of wheat prod-, udvel ordal breads from the ba-

"To provide sufficent ored to d formes, pullbo estima hors and siera and manufacturers, hould in estimate polatoc , vegetables, corn, barl y, over, outs and tice products, and the mixe'r cre I bro, d and other product TeYon don't got me. I wrote this upadmixture of other cereals

"In ord rethit ber and on in to restil to d to this extent, Mombing We have dues to the observed n wheather the with we are on all the colors of the colors gov. 1 a se v. corles por the

ANDROSES D'AST PROQUESTIONS

Inrough recent investigations to the mining bureau, says Commerce Reports, it is barned that the total producing enpacity of Japanese steel mills was 688,000 tons, in round figures, last August, neverding to the Japan Advertiser. Thirling to first half of the past year 259,000 tens of various sluges were produced he this country, exclusive of the colonies. Of this amount 200,000 tons were produced by the gavernment steel works. The Japan Steel Tube Co. turned out 22,000 tons; the Japan Steel Works, 14,000 tons; the Kawasuki Dockynrd Co., 12.000 tons; und the Kamnishi Steel Works, 10,009

The Advertiser quotes officials as snying that at the end of the past year the products of those unliks reached 570,000 tons net. Compared with the preceding year this is an increase of 60 per cent. If this rate of increase is maintuined, 1918 will see a further incrense at least to \$50,000 tons net.

HANCOCK HEARS EXPLOSIONS.

Hawesville, Ky., Jan. 28 .- Resldents of Hancock county were startied about 6 o'clock to-night by a series of sharp explosions. Inquiry made in the communities where the expioslons were heard failed to afford a solution of the cause. The expiosions were not heard in Hawesville. but were reported from Chestnut Grove, Chambers, Gatewood, Blackford, Lewisport, Finley and other jo-

ealities In the county. The explosions are said to huve been similar to rapid machine-gun fire. In some Instances, houses were reported shaken, aithough no materlai damnge seems to have been done. The reports, according to persons who heard them, began without warning and continued steadly for from ten influtes to nn hour, and would subside for a time. No expianation is offered as to the eauses of the explosions, some believing them to have becu electricni disturbances, while others incilno to the beilef they originated under ground.

About Constipation.

Certain articles of diet tend to check movements of the bowels. The most common of these are cheese, tea and boiled milk. On the other hand rnw fruits, especially apples and bananas, also graham bread and whole wheat bread promoto a movement of the bowels. When the bowels are badiy constiputed, however, the sure the wreck occurred at 6 o'clock Mouway is to take one or two of Chamhoriain's Tablets immediately after

Strong Efforts Goling On to Stamp Out Discusa That In Known as Nachrot.

To cor led to be not be a ve Police recording by very Pleast the Pitter States, the Prival States open on or a necession to energenn by to us ist greaters in to the a method of controlling the chance with the hope of putting the no thod on a practicaide lasts for connerchil use. Specialists of the department will be assigned to the districts affected to advise farmers and to help in the installation and equipment of necessary structures.

The districts known to be infected include the principal onlon-growing centers in Massachusetts, t'onnecticat, Ohlo, Indiana, Delaware, Wisconsin and Oregon. The disease occurs in other stales also. Losses of from 25 per cent to 75 per cent in white onlon sets have been recorded in the vicinity of Chicago and in northern Indiana. Red and yellow onlous are not attacked as seriously as the white vari-

ety.

The disease known as neckrot is caused by a fungus. The purasite cuters the wounded neck of the bulbs at harvest time and gradually rots the scales until they become dried up and worthless. Of the control mensures that have been tried, artificial drying of the onlon sets in crates just after harvest has given the best results. The object of this method is to cure the necks as soon us possible, and thus check the fungus before it enters the flesh scales. In various lots trented recently the rot was reduced from 14 per cent to 1 per cent; from 47 per cent to 7 per cent; from 50 per cent lo 7 per cent, and from 92 per cent lo 10 per cent.

RAILROADS USE MUCH COAL

Require Almost Twenty-Five Per Cent of the Total Output of the Country.

Figures compiled by C. E. Lesher of the United States geological survey show that 126,000,000 tens of bluminous conl, 6,725,000 net tons of Pennsylvania anthraclte and 22,950 tons of coke were used by the rallroads in the United States in 1916. The increase in the quantity of bituminous conf. used by the railreads in 1916 was 14,000,000 tons, which was 11.5 per cent more than 1915. The increase in the consumption of muthracite by the rallionds was last 535,000 net tons, or 8.5 per cent. There was an increase in railroad consumption of nearly 4,000,000 tons of coul from Illineis. about 2,800,000 from Ohla and of 4,800,000 from West Vlrginla. The quantity of coal from Pennsylvania used by the railroads decreased nearly , 8.000,000 tons.

The quantity of Lithminous coal used by the railroads in the eastern elserler hieronsod from 56,500,000 pe 62,700,000, or 11 per cent. The Increasin the Southern destrict was from 22.-090,000 to 23,300,000, or 5.1 per cent. and in the Western Cistrict, from 43 -500,000 to 50,000,000, or 15 per cent.

The total quantry of bituminous coal u ed by the privocals was about 27 per cent of the total production als egalast 28 per cost in 1815. The eausylvinia authencity used by the ranfroads in 1911 vals 7.7 per cent of the total mularacite produced and the combined blitumingus and suthracite used, 142,735,000 tons, was 24 per cent of the output, the same as in 1915,

Making Life Worth Wille.

To increase your earning capacity, you must be an energette, live speelmen of hunennklud. You should be throblang with surplus power. You should possess a degree of strength that will give you conflictnce and courage and endurance. Then you can go on day after day, relates a writer, adding to your shhi and knowledge and power in your profession. And when you have climbed to the highest joint on one sphere of endeavor, you will be ready to look around for other work, had continue to experience the delights. that come only with the dally struggle, required for the uttalament of the family by the loyer Roman Yurieobjects one has in view. Do not forgot the value of systematic effort. Do not waste your energies. Intelligent direction Is all-Important. Force, to be of value, must be applied at the proper place. Effort, to be productive of reward, must be directed by superfer Intelligence.

Made the Account Even. "There's nothing like repairils," sald a recrulting officer, "A t bacconist sent a dector the other day a \$10t box of clgars, saying he knew they hadn't iden ordered, but they were so excellent he was sure the doctor would enjoy them. Bill Inclosed. Terms strictly cash.

"The ductor wrote hack;

"Delighted with the cigars. Though It is true you linven't called me In, I venlure to send you herewith two prescriptions for rhenmatism and dyspepsin, respectively, that I not sure you will like, as they have given universal satisfaction to my patients. Not Only That, but Enormous Number of Them Are Needed In a Steel Ship.

The Lire stelling to Item In the labor riviting of her had; therefore the a 'vlag thave's is after as a standard of size and of pactress by most of the s plantders, To taild a 10,000 ton ship a week means the dilying of about 650 over rivers in that time. The Union shippards of San Francisco, as To the Several Councils of Defense at present confined and freed from labor troubles, can drive about 300,000 rivets, although hi a record week it drove 411,000 rivets; the four next largest yards in America-at Fore Hlyor, Mass., at Newport News, Va., at Camden, and at Philindelphia upon the smaller steel shippards will drive from 50,000 to 150,000 ench seven days,

Hiveting, despite nil the inventions work and slow work. A riveting gang consists of two men and two boysthe riveter, his "holder-on," the passer boy and the heater boy. The gang olrives from 200 to 375 rivets in the course of a ten-hour day and is tired at the end of It. But when you know than 350 rivets, you can begit to see the full size of the labor problem of driving at least 650,000 rivets a week necessary to turn out a 10,000-ton ship ut the end of that length of time. In other words, you need 1,200 men for

the riveting gangs clone. .Look at the matter from another angle, writes Edward Hungerford in Harper's. Ten ships a week-the tremendons program for 1918 to which we els a week. And the rivet capacity of our five greatest yards-with a total working force of 59,000 men ut the endof 1917-was but 1,850,000 rivets a week. And riveting represents only about 20 per cent lu the construction of a ship.

New York and Quebec. Quebee City is older than New York

It was founded in 1608 by Samuel de-Champiain, whereas the earli st date that can be set ter the founding of New York is 1010. New York Hay and the Hud on river were discovered by Verra and in Lall, and the discovery was tellowed by occasional visits of 1 ad ug and exploring vessels until the arrival of Henry Lindson in 1609, one year other Champlain had built like fert and chateau en the slope leading up to the heights of Quebec. Beginning with 1610 Dutch merchants allse patched several vessels to engage in the fur trude with the Indians, and in 1614 n ship commander Adrian Block, having fost fils vessel, built the Onrust" or "Restless" on the shores of the upper harbor of New York. About the same time a few faits were built on the south end of Manhattan Island. In 1623 the country was erected into a province by the Datch, and the seat of government was established on Manbathin Island, on part of the site of the present city of New York. Untch rule commenced, and continued until September 8, 1661, idmost one immdred years before the Brillsh negalred New France or Canada.

LEE AND GRANT MEMBERS SAME CLUB-WAR ENDS

Washington, Jan. 26 .- Ulysses S. Grant and Robert E. Lee are to-day "both members of this club." The grandsons of the generals who fed opposing armies in the civil war have been voted into membership by the board of governors of the Chevy Chaso Club.

When their names were proposed and-a member explained to the chalrman the relationship of Messrs. Graat and Lee to their historic namosakes, one of the board moved that they be unanimously declared here and aow officially at an ead."

RUSSIAN NEGOTIATIONS ONLY TOPIC IN BERGIN

The Hague, Jan. 26 .- Corrospondents state that the only tople of convorsation in Berlin is the linssian negotiations, everybody expecting them to relieve the food situation. Small packets of Russian lea help to assist this encouragement.

Nelthor the Western front nor domestic dissensions aroaso any considorable interest in comparison. The Socialist majority papers, however, especinily the Chemnitz's Pcople's Voice, are beginning to warn the people ngainst the assumption that all is over except the shouting. Similarly Prince Max of Hadea, president of the Itaden Upper House, warned Germans that the sword alone can not overcome the nutipathy of the whole world against Gormans. Prince Max knows more than most German statesmen of the feeling of the world outside Germany, and his is the first official attempt to warn Germans of the real state of worldwide feeling ngalust Germany which they will find when the war eads.

America's Greatest Cereal Crop Is Now Moving to Market.

MAINSTAY IN NATION'S CRISIS.

Surplus Wheat of the United States Has Been Sent to Famine Threatened Europe.

America's great corn crop, exceeding 3,000,000,000 bushels, will save the world's food situation, officials of the United States food administration be-

Corn is the nution's best food cereal, housewives ore beginning to realize. It contains all the elements needed to keep the body in a sinte of health and when used necording to the scores of tried recipes, especially when combined with an added portion of oil or fat, will sustain Hie midelinitely. Indian warriors in colouin days lived on parched corn alone for many days at a line, and at Valley Forge purched corn was at times the sole ration of the Continental soldiers.

Owing to transportation difficulties enused by the war the corn crop moved more slowly to market this year than over before. Now, however, the cerent is reaching the fulllers and consumers. In the meantline the nation's surplus whent has been sent to Enrope,

Todny there are approximately 30 bushels of corn for every American. This quantity is greater by live bushels than la former years.

Corn has become the nation's maiastay in the crisis of war. Just as ilds cerent saved the first

American colonists from familie on conny occusions, just as it served as a staple food during the War of the Revolution and during the Civil War, King Corn has again come to the front ke the nation's buttle with autocracy.

Corn meal is finding greatly increased use in the making of ordinary white bread. Hundreds of honsewives and many of the larger bakers are mixing 20 per cent, corn meal with wheat flour to make leavened bread. This kind of a mixture is worked and baked In the same recipes and with the same methods that apply to straight wheat

Corn brend-using eorn ment entirely-ls gaining a greater popularity than ever before. Housewives are coming to realize that every pound of whent saved in America means a posad of whent released for shipment to the untions with which America is associnted in the war.

There are a score of corn products hnt today possess musual importance for Americans. Corn symp for sweetening corn cakes and backwhent cakes and for use in the kitchen instead of granulated sugar is one of the lending products made from corn.

Corn oil, excellent for frying nad for very other purpose filled is appearing on the market in large quantities. It couses from the germ of

MADE-IN-GERMANY LIES CIRCULATED IN CANADA

Cunnda is also having trouble with Unde-in-Germany lies enlealated to hlader Canadian food conservation acearding to an official statement received from the Canadhan food controller by the United States food adudaistration.

The stories bothering Canada are of the same general character as those the United States food administrator recently denounced in this comtry, such as the ridiculous salt and blacing familie fakes and the report that the government would selze hoasewives' stocks of home canned

The Canadian food controller estimutes that when the people listen to and pass on such stories, each one lus the power of destruction that iles In a buttallon of soldlers,

"Storles without even a vestige of foundation have been scattered broadeast." sold the Canadian statement. Nor have they come to life ensually. They have started simultaneously in different parts of the country and in each Instance have been calculated to arouse public indignation.

"They are insidious, subtle, persistent. Bit by bit they dissipate public trust, the great essential in the work of food control.

"It lies with every individual to forbear from criticism; to refruin from passing on the vagrant and harmful story, and thus the more effectively to co-operate in work which is going to mean more than the majority of people yet realize."

THE UNITED STATES FOOD

ADMINISTRATION SAYS: There is no royal road to food conservation. We can only accomplish this by the voluntary action of our whole people, each element in proportion to ite means. it is a matter of equality of barden; a matter of minate eaving and substitution at every point in the 20,000,000 kitchens, on the 20,-000 000 dinner tables, and in the 2,000 000 manufacturing, wholeeale and retail establishmente of the country.

WHOLE WORLD WILL STARVE

That the civilized world will be educed to the verge of starvation ! the European war continues two more years, is the opinion of Europedn food experts, Dr. Maurlee Franels Egan, United States minister to Denmark and deaa of the Amerlean fiplomntle corps, declared here toalght. Dr. Egan, who has just reinraed from his post in Copenhagen and came to Norfolk to attend the wedding of his alecc, Miss Annn Mc-Carrisk, declares the people of Dennark are, now living in practical davery and that the same is true of the ether email European nations.

Shut off from America and Great Britian by emburgoes, under he ebedow of Germany,s land and sea managor, and with a rigorous winter gripping the continent, Dr. Egen deelered the little nations are in dire straits and heipless. Food le so scarce that the famous Danish wolf hounds are being eleughtered

Dr. Egan werns the Walted States igningt Garmen espionage, with its far-reaching tentacles, declaring that his embassy had proofe of the possession of minute maps of this country, end especially of Virglaia

"Only those who live within the shadow of Gorman oppression," sale Dr. Egen, "ean reslize the pricoless boon of liberty. Any person who knows empditions in Denmark weest seel the desire to fight for the overthrew of Prussianism The hope of Europe rests upon America The United States must bear the brunt of the war for the time lesing and must win the victory, if the races are to be seved from slavery and the world is to be rescued from the fate of impending starva-

How Scottish Aviator Dropped Wreath on Funeral Procession of Man He Killed.

A true incident timt reveals the respect shown by ellied nylators for the memory of a darling enemy ther is told In "Turn of the Scoots," by Edgar Wal-Introd | Scatchman, was tob! that the man he had brought down the day before was a well-known German aviator named Von Zeldlitz, and on behalf of the Reyal Flying rorps, Tam was selected to take a wrenth to the funeral,

"The wrenth in a tin box, tirmly corded and attached to a little parachute, was placed in the fushige of a small Morane-bls ewn machine being in the hands of the mechanics-and Tam never employed a lesser one,

"Evidently the enemy scout realized the business of this lone British flyer most next. and must have signated his views to teries suddenly censed fire, and when, upproaching Laidezeel, Tum sighted an enemy squadron engaged in a practice flight, they opened out nul made way for him, offering no molestation.

spotted the big white-speckled cometery and saw a little procession making its way to the grounds. He came down to a thousand foot and deannoil sall earthward and then someone on son to us. the ground waved a white handker-,

"'Guid," said Tran."

RECRUIT HAD OWN METHOD

Showed He Could Do Some Shooting When Sergeant Let Him Do It as He Wanted.

Among a batch of recrults sent up from the recruiting office was a tall, lanky, tow-hended East Tennesseeun. whose habitat stack out all over him. He took to the training all right People of Different Parts of the Earth enough mittl the company went to the turget range for rifle practice.

The sergeant in charge of the practice showed the recruits the regulation against the side and all that. But to grant blurted out:

your irreakfast, and now you can't even hit that target!"

To which came the drawling retipit targer."

The numsed sergeant agreed and the the imizzle-and put ten shots through, thing he had esten at home. the center of the bull's eye.

genut's efforts to teach him her to even then perhaps they smell no worse years in succession-won the Busalo, is a favorite Bussian beverage. Truly, can defies the dereest sun, while the

Made 10,000 Shark Hooks.

The government is going in for shark fishing, but not as a sport, however. It is going after this aquatic monster that the skins of the slarks may be tanned and used as a substitute for leather.

The experiment is now under way, and the man who has given Uncle Sam a leg over the fence, as It were, Is J. W. Fordham, a New London, Conn., artisan, whose black-milth shop is in the vicinity of picturesque Shaw's Cove, for in that little smilliery 10,000 shark hooks were made in three sizes for the United States government.

Mr. Fordinm signed the contract and was allowed thirty days in which to complete the order. By keeping his force working day and night he was able to ship the cutire consignment to the government agents in New York in little more than half the time called for hi the contract .- Marine News,

Hands and Feet.

At a busy crossing in Edinburgh a cabbian was stopped by the policeaninon point duty in order to allow the rross traffic to proceed.

The man in blue, evidently proud of his authority, kept the cabby waiting

longer than was necessary. The enbraan began to proceed, although the band of the policeman was

"Dld ye no' see no haudin' up my hand?" roured the nugry pollecomm.

"Well, I did notice that it began to get dark suddenly," said the rabby; but I didn't know it was your hand. Ye see, it's takin' me all my time tae keep my horse frue shyln' at yer feet !"

Delicate Youth.

Here is a little story made public by the United States Marine corps:

Pearlug that the rigors of warfare would be too much for ber delicate son, « woman living at Fresno, Cal., wrote to the United States Marine corps heolquarters at Washington, asktug that the young man be ills-

"He is too weak and delirate to be in the service," she wrote. "He is n blacksmith's helper by trade, and I would prefer lilm to stay at his last

The Afri-"there is no accounting for tastes."--New York Sun.

Playing the Man.

No matter what part he may he playing in the strenuous game of life as it is presented today, the brotherhood man, above all others, must play the man. These are thues when the best timt is in as must be given to "corry on," and the race run with steadfastness and a manly purpose. As Hobert L. Stevenson so heautifully puts it: "Whether we regard life as a line lending to a dead wall-n mere bag's end, as the French sny-or whether we think of it as a vestibule or gymnasium, where we walt our turn and prepare our facilities for some more noble destiny; whether we tlumder in a pulpit or pule in little esthelle poetry books about its vanity and brevity, whether we look justly for years of health and vigor, or are about to mount late a bath chalr, as a step towards the hearse; in euch and all of these views and situations there is but one conclusion possible; that a man should stop his ears against paralysing terror and ran the rare that is set before blm with a single mlud."

"Flying Fish" Torpedo. Aerlal torpedoes-the bane of German submarine crews and tirst-line trenches-have been called "tlying tish," because their tapering cylindrical bodles and huge nir-fins suggest the trople sen creatures. The torpedoes are held upright in the nir and given a diving velocity by the air resistance which strikes the fins, spin, ning them round and munil. Contrary to popular impressions, certain forms of air resistance speed up rather than return falling objects. Not only the nertal torpoloes, but all airplane bombs and darts, are now grooved or linned to whiri in fulling. The German Zeppeliu bombs are similarly constructed.

Uses of Potatoes in Sweden.

Uses made of Swedish potnto rrop, officially estimated this year at \$4,244,-820 bushels, will be interesting to people of the United States. Of the catire crop, 37.1 per cent is used for direct human consumption; 32.7 per cent is fed to unimals, and 6.5 per cent is used lit tiour making. The loss in storage is 11.0 per cent and 11.8 per cent is retained for seed.

RESPECT FOR FALLEN FOE CITY HAVING RAPID GROWTH HE WAS NOT TO BE OUTDONE

Roosevelt Would Not Allow Magazine Writer-Sportsman to Tell the Biggest Yarn.

Colonel Roosevelt gave n luncheon in his New York office one day to a company of young ungazine writers. These young writers had had many adventures, and they told the colonel many interesting stories. One, however, a sportsman, drew the long bow. After the sportsman had drawn the long how almost to the breaking point in a yarn about a hippopotamus, Colo-

glasses on the criminal and begin: "Let me tell you an experience of my own, my hoy, nu experience almost in the growth of Washington, for I as incredible as yours. In '98 I was shooling grizzly hear in the Itoekies. I day. I advanced toward it ninng the ting a good shot at last, I let drive, Washington, I presume, is the busiest but missed. The bear came for me then like lightning. I took nim ugalu, lort as I was about to lire my foot slipped, I fell, and my gun dropped and rolled over the precipice. There I lay, muarmed and helpless, and the maddened grizzly not six feet away."

Here the colonel paused and rook a sip from the tall glass of milk-milk is his favorite beverage-before him.

The merelaclous young nun frowned Impatiently. "Well?" he said. "Well? Go ou.

What happened?" The colonel, looking him calmly in

the eye, replied: "The grizzly devoured me,"

NOT PROMULGATED BY MOSES

Hindu Ten Commandments Are Hung on Walls of Theological College at Madras.

There are ten commandments huag on the wails of the Hindu Theological College in Molras, and while they were not promulgated by Moses, they might be displayed in every Christian college with advantage, says an exchange. They are:

(1) Pray to God as soon as you rise from your hed-5, 5:10 a. m. (2) Wash your hody and keep your surroundings elenn-5:10, 5:30 a. m. (3) Prostride yourself before your parents or gourdians, and take good exercise-5:30, regularly and panetually, and do the school work properly, (6) Obey and respect your teachers, and the teachers of the other classes and other respeciable persons, (7) Itend till 8 p. m. at home, (8) Pray to God and go to bed-9 p, m, to 5 a, m. (9) Keep good company and avoid bad company. (10) Practice righteensness at all

Two Types of Eiephants.

There are two distinct types of elephants-the African and Indian. The former have developed the largest unlmals and are quite different from the ladlan type, having only four visible toes on the rear feet, as against live in dian elephant's back slopes gently Indian lopes away from it to the heaviest, coolest shade.

The age of the elephants is widely disputed, the best calculations of hunters and scientists being admittedly only a little more than hazards,

Sir Sannel Baker, on authority. states the average life of pn elephant to be about 150 years. It is exactly known that elephants have lived in coptivity for 130 years. Naturalists belleve, however, an elephant's life la the wlid state to be twice as long, necording to a recently published book catled "The Elephant."

Only Rubber-Producing Plant,

Successful attempts have been made to bring under prolltable cultivation the desert rubber plant, gunyule. The wild shrubs have long been collected in great quantities in Mexico, and the rubber, which grades much lower than para, is extracted by such simple processes us to make its production very profitable. The task of the developing methods of cultivation, says a Carnegle lustitute report, has now been successfully accomplished by Dr. W. B. MacCallinn, who, in making it genetic analysis of the plant, has found that It includes several elementary species, which do not rendly interbreed. Studles of the plant have been made at the desert laboratory, Tucson, while in the same neighborhood a company has purelissed 7,000 acres of land on which to establish guayale culture. This is the only rubber-producing plant growing within the borders of the United States.

Some Information.

"Selentary work," said the lecturer on physical torture, "rends to lessen the endurance." "In other words," butted in the smart

aleck, "the more one sits the less one can stand," "Exactly," retorted the lecturer, and if one lies a great deal one's

standing is lost completely."-- Judge,

People Will Think,

"What did they do with that accused official?" "Pending a hearing, they have sus-

pended him without prejudice." "Looks to me like another sample of something that cau't be done."

Bruss hooks are attached to the plug to let the grain run into his busket.

The houses about the little streets might be copies of medieval iliustrations, and the dates on many of them go back to medieval times. Each house has its little gurden full of simple mountain flowers and in the doorway or in the garden itself the women sit. at work on the embroidery which is n famous local product. Gruyeres Is known for its embroideries and its cheeses, both of which are strong and guaranteed to wear well.

IGORROTES HAVE ODD HABITS

Use No Cutlery, Grabbing Food Out of a Common Kettle-Presented With a Spoon.

After interviewing me for half an hour the old chief led me to the feast, says Edward S. O'llellly, describing a visit to the igorrotes in the World Outlook. Two huge iron ketties were slmmering on the fire. One was illied with rice and the other had a kind of Irish Like all Filipinos, the Igorrot ents with his hands, but I fished a tin spoon

out of my suddle pockets and gave them a lesson in tubic manners. They watched every lilte I took with namzemeat. After the ment was finished, the spoon was passed around and earefully Inspected. Seeing that the old chief was greatly interested in this new-fangled Instrument, I presented it to him in a neat after-dinner speech.

He accepted it with delight. Having no pockets, he stuck the spoon through n hole la his ear, where he wore it with

n jaunty pride. Then came the dancing. Hour after hour they kept it up, benting their tomtoms and little bruss kettles and cireling about the fire. They dauced he ordered formation, going through evolutions that would have done credit to n Hroadway chorus. In the shadow of the huts I could see the women, standing with arms outstretched, chanting in subdued monotone and swaying to the rhythm.

Pldgln English.

The world pldgin, or pldgeon, as connected with English, is a Chinnmun's poor attempt to promounce the my business. Brewer gives it-busi-

ess, pragmess, bldgen and plgeon. Pigeon English, therefore, menus huslness in Paglish. It is a strange almixture of English, Chinese and Portoguese, and is used in all parts of the fur east as a means of communi-Grayeres is one of the few spots in cation between the natives and the pigeon English was the natural result. who seek situations in foreign employ, The town clusters in a tiny compact and it has become popular as a medi-

Effects With Laths.

Left over wall laths can be made use of in various ways. Tacked horlzonfully and vertically at the back of an ordinary wooden box and the whide thing painted in white or some bright color, they make a most charming trells for the window or porch, ily. They are also effective as a bedroom closet convenience for holding dressing gowns, etc. They should be paintsquares, and un uddltlon, both useful and pleasing, is gained in the home.

Vain Regrets.

"I can't see what Mildred sees in that Smith boy," remarked the girl's in his head to fill a pennut shell."

"Oh, well, I dure sny your mother and relaives. said the same thing about me when I was courting you." replied the girl's Corline and Thelma Deants Saturfather indulgently.

She certainly did, but I was just as hig a fool as Millired is now, I wouldn't listen to the advice of my
